IT IS A NATIONAL SAVINGS BANK .- while this loan presents great advantages to large capitalists, it offers special inducements to those who wish to make a safe and profitable investment of small savings. It is in every way the best Savings' Bank; for every instideposits profitably in order to pay interest and expenses. They will invest largely in this loan, as the best investment. But from the gross interest which they receive, they must deduct largely for the expenses of the Bank. Their usual rate of interest allowed to depositors is 5 per cent. upon sums over \$500. While nearly all other stocks have gone down from twenty to fifty, and even a greater per cent. within a few weeks, all forms of U. S. bonds and stocks have remained firm except the slight fluctuations that are incident to all rapid changes in the money market. Our readers will remember that the subscribers to the 7-30 loan receive semi-annual interest at the rate of seven and three-tenths per cent. per annum in currency, and at the end of hree years from June 15th, 1865, they will have the option of receiving payment in full or converting their notes into a 6-20 six per cent. gold interest bond. The late great decline in the premium on gold makes these notes more desirable than ever as an investment, and it should not be forgotten that their exemption from State or municipal taxation adds largely to their value. There is no interruption in the receipt of subscriptions or the delivery of the notes.
